

# Short Term Stays

## THE BENTON HOUSE RESPITE PROGRAM

The Benton House Respite Program lets your loved one join our community as a resident on a temporary basis. Apartments are fully furnished and guests only need to pack a suitcase. Families use our respite option to plan for vacations, help during work or personal emergencies, or even to serve as an intermediate step before returning home after a medical emergency.

Short-term stay residents are a part of the family. They enjoy the same services and amenities as other residents in the community. Apartment furnishings, including television, are provided.

Service fees are determined by the length of stay, apartment style available and any special services needed. Our staff will be happy to provide you with a quote.

*Call today to learn more about these wonderful options and our current availability. We are proud to offer this benefit to caregivers and hope we can serve you and your family in the future.*
